The last fiscal year was indeed a year of test for NBI without the grant assistance of ADB. It was a big challenge for us to prove that the institution had taken off to a sustainable mode. Our team toiled hard day in and out to keep the business momentum going unabated. The hard work, perseverance and patience did pay off in getting the desired yield.

In this quarter, we had a big challenge of conducting an International conference of APABI (Asian Pacific Association of Banking Institutes). The arrangements were made in full swing liaising with vendors of various types, coordinating with national and international guests, planning the logistic arrangements, delving into nitty gritty and many more. Finally we delivered the flawless conduction of the mega event on 22nd and 23rd of September 2016. The event with the theme "Best Practices in Banking and Financial Industry's Talent Development in Asia-Pacific" received an overwhelming response with participation of international and national delegates. It was on the day of APABI conference that we launched our professional banking certification on "Risk Management".

Yet another challenge before the festive season of Dashain and Tihar was our 8th AGM. The AGM was also a success in terms of attendance of representatives of the share holder organizations.

The year ahead is yet more challenging in terms of achieving the budget. Setting ourselves in the right direction from the very initial stage is crucial to reach the budgetary goal. JANBI the first professional banking certification in Nepal has gained good momentum over the past few months and the realization of it's value is increasingly growing.

We have a series of action plans to diversify our products which we shall unveil in the coming days.

Till then, Happy Banking !
